My Dear Girl:

I guess i will just steal a little time while no one is here and write my girl, today has been a day of leisurre so far, only a few people in town, think it is a little to cold for them.

Say i am going to take my second degree in the odd fellow lodge next saturday night, you know i took the first degree a long time ago, and had always intended to finish, but never have had the opportunity, so i think now is a good time.

Say i am liking it a lot better this week than before i just believe some of these old fellows are pretty good, but girl they are peculiar pieces of humanity.

I Am going to close now and go and get a good letter from the girl, our mail comes at two oclock.

With all my Love, Albert.
